Full representation is attached. Covering letter plus table of representations against each of the relevant MMs. All of these need to be considered.

If your representation is more than 100 words, please provide a summary under 100 words here:

The modified Plan presents so many transport weaknesses as to be unsound. It rests on a Transport Strategy whose evidence base is flawed, in terms of model structure and data. The two traffic models are not up to standard, raising severe questions about future capacity and funding. Data for Aylesbury has not been updated, despite being six years old, in the light of significant new road scheme proposals and local increases in proposed housing numbers. Deliverability against the timetable for funding and construction is unrealistic. The Plan also fails to incorporate the transport potential of the Expressway and East-West Rail.

Please specify the changes you think are needed to be made to the proposed main modification. It will be helpful if you are able to put forward your suggested revised wording of any policy or text.

Full remedial action to correct the errors and gaps in the transport evidence base and modelling, followed by a revised set of proposals including funding plans and timetable, with public consultation on these modifications.

If the inspector decides further hearing sessions are needed would you wish to speak at these?

Yes No

If Yes - you wish to speak at any further hearings, please outline why you consider this to be necessary:

The technical aspects of the transport element of the Plan require thorough clarification in order for the Inspector to be able to form a valid assessment of the soundness of the Plan.

Do you wish to be notified...
